

PROJECT:

2022 / 2023

GML 10th YEAR REBRANDING & NEW WEBSITE

Green Media Lab's associate art director gave me a direct responsibility for this rebranding operation that required an external point of view.

In the first phase my work was focused on research and type design, in order to refresh GML logotype and to fix some legibility issues. I personally took care of art direction & copywriting to support the new brand expression with a different narration framework.

As the renewed visual identity took shape I worked on UX/UI design for corporate website simultaneously - to get an organic and consistent output: I was then involved in design hand-off process with outsourced dev partners. Currently, we're following up the evolution of GML business, implementing new design solutions to communicate this growth.

INTRODUZIONE:

Rispetto alla versione precedente del logo, in uso durante i primi dieci anni di attività di Green Media Lab, abbiamo individuato alcuni elementi di richiamo al **mondo naturale** che abbiamo incluso tra i caratteri del nuovo logotipo.

Un altro aspetto fondamentale che abbiamo considerato nel nuovo disegno è stata la **leggibilità** del lettering in tutte le sue parti, al fine di migliorarla nelle piccole dimensioni.

As Sustainable

As Possible.

OUR PURPOSE.

At Green Media Lab, we support our clients & partners in **facing the challenges of today and tomorrow**. We do design disruptive **communication strategies** and we lead your business in **corporate social responsibility** path.

UTILIZZO DEI PITTOGRAMMI:

Il nuovo icon set personalizzato racchiude al suo interno dei pittogrammi unici, creati con l'obiettivo di caratterizzare la typeface di riferimento e accompagnare gli elementi interattivi nelle interfacce digitali.

Abbiamo individuato alcuni glifi fondamentali che avranno la funzione di guidare gli utenti attraverso i topic della nostra comunicazione, per rendere memorabili e riconoscibili i contenuti, valorizzando l'identità del brand.

GREENMEDIALAB.COM:

Il nuovo sito istituzionale di Green Media Lab esemplifica al meglio l'applicazione di tutte le linee guida utili alla comunicazione del brand, con riferimento all'utilizzo delle immagini, della tipografia e degli altri elementi che ne delineano l'identità.

I colori sono alternati in modo proporzionale, in contrasto con il tema scuro delle pagine. L'utilizzo della dark mode per lo sviluppo di questo touchpoint è utile a ridurre il consumo di energia durante la navigazione.

UTILIZZO DELLE IMMAGINI:

La fotografia è uno strumento fondamentale per la costruzione dell'identità visiva di Green Media Lab. Dallo storytelling che riguarda le collaborazioni con i clienti, fino alla promozione di Fabbrica dell'Aria, le immagini sono utili a creare una narrazione solida e ad aumentare la riconoscibilità della comunicazione.

Per l'utilizzo di immagini inerenti a progetti e collaborazioni con i clienti, è necessario selezionare i contenuti che rappresentano in modo chiaro e inequivocabile, le attività per cui GML è stata direttamente coinvolta come partner. L'uso di immagini astratte riferite a concetti e valori (che non raffigurano quindi attività/spazi/persone) dovranno essere caratterizzate da tonalità in linea con lo schema colori.

SCROLL DOWN

UTILIZZO DEI GRADIENTI:

I gradienti contribuiscono a rendere più identitaria la comunicazione di Green Media Lab. Questi possono essere creati a partire dallo schema colori, senza limiti di interpolazioni e numero di campioni, ma dando priorità all'armonia tra i diversi accostamenti cromatici. In funzione del contesto di utilizzo, i gradienti possono essere arricchiti con gli elementi dell'icon set o con texture organiche/materiche.

2019

WORKS

2023

I'm a 28yo designer based in Milan (IT), with +5 years experience in creative consulting, digital product design, UX/UI design, exhibit and project management. I'm interested in common patterns through multidisciplinary creative processes - not limiting myself to one sector - as I believe design has a deeper purpose and cultural outreach.

Photography taught me the meaning of creativity and imagination. I trust in full awareness, random inputs, illogical conclusions, open alternatives, marvel and alterations. We will never be amazed again unless we stop asking what is normal. Though, I still haven't found some time to work on my personal website.

This is a selection of the most important projects I've recently worked on. Let's work together!
